

PARCOURS THÉMATIQUE
MARQUES DE DISTRIBUTEURS
PRIVATE LABEL
THEMATIC TOUR

LES MDD sont les marques détenues par les enseignes de distribution, créant depuis une quarantaine d'années un vrai rapport de force avec les marques classiques.

PRIVATE LABELS are brands owned by retail companies; in 40 years they became the source of an increasing competition with classic brands.

MARCHÉS & TENDANCES MARKETS & TRENDS

Le marché mondial et européen des marques de distributeur (MDD) connaît une croissance significative. En 2023, les MDD représentent **19,4% du marché mondial**, avec des ventes en Europe atteignant 340 milliards. En France, les MDD représentent **39,1% des dépenses des consommateurs**, avec une augmentation de 3,5 points depuis 2022, principalement due à l'inflation. Les principales enseignes diversifiant leur MDD incluent **Carrefour, Intermarché, Auchan, Leclerc et Monoprix**. Le commerce électronique alimentaire a également progressé, avec 11,3% des achats de produits de grande consommation (PGC) réalisés en ligne en 2022.

Les ménages modestes et ceux avec des bébés sont les principaux consommateurs de MDD, 75% d'entre eux déclarant que les MDD constituent au moins la moitié de leurs achats. Les ménages aisés ont également augmenté leurs achats de MDD de 9,5% en 2023. **Carrefour Market a enregistré la plus forte progression parmi les enseignes.**

En France, les MDD dominent certaines catégories de produits, comme les traiteurs de la mer (57%) et les produits d'hygiène-beauté (20,4%). Dans d'autres pays européens, les catégories de produits en croissance pour les MDD incluent le fromage, le pain, les biscuits sucrés, les yaourts et les produits surgelés à base de pommes de terre.

*The global and European private label (PL) market is experiencing significant growth. In 2023, PLs accounted for **19.4% of the global market**, with sales in Europe reaching 340 billion. In France, PLs represent **39.1% of consumer spending**, with an increase of 3.5 points since 2022, mainly due to inflation. The main retailers diversifying their PLs include **Carrefour, Intermarché, Auchan, Leclerc, and Monoprix**. Food e-commerce has also progressed, with 11.3% of consumer packaged goods (CPG) purchases made online in 2022.*

*Low-income households and those with babies are the main consumers of PLs, with 75% of them stating that PLs constitute at least half of their purchases. Wealthier households have also increased their PL purchases by 9.5% in 2023. **Carrefour Market has recorded the highest growth among the retailers.***

In France, PLs dominate certain product categories, such as seafood ready meals (57%) and personal care products (20.4%). In other European countries, the growing product categories for PLs include cheese, bread, sweet biscuits, yogurts, and frozen potato products.

Les exposants présentés dans ce guide proposent des produits, services ou matériels s'adressant au marché spécifié en première de couverture. Leur inscription a été réalisée sur la base de leur déclaration. Ce document a été réalisé au moyen de renseignements obtenus avant le 27 Septembre 2024. L'organisateur n'est en aucun cas responsable des modifications intervenues depuis cette date, des omissions, erreurs de reproduction, de composition ou autres, qui auraient pu se produire dans ce document.

The exhibitors listed in this guide propose products, services or equipment addressing the sector specified on the cover page. The registration was realized on the basis of their declaration. This document was realized by means of information obtained before September, the 27th of 2024. The organizer shall therefore not be held responsible for any modifications, omissions or errors that may have occurred since this date.

PRODUITS POUR LA RESTAURATION
CATERING/FOODSERVICE PRODUCTS
THEMATIC TOUR

COMEXPOSIUM

SIAL, une filiale du Groupe Comexposium

ON DÉFINIT LA RESTAURATION HORS DOMICILE (RHD) comme le secteur économique permettant aux consommateurs de s'alimenter hors de leur domicile. La restauration hors domicile comprend par exemple les restaurants traditionnels, la restauration rapide, les cafétérias et les cafés.

THE CATERING INDUSTRY can be defined as the sector which allows consumers to eat away from home. It includes for instance traditional restaurants, fast food restaurants, cafeterias and coffee shops.

MARCHÉS & TENDANCES MARKETS & TRENDS

Après la joie des retrouvailles à la fin de la pandémie, le secteur poursuit sa croissance annuelle en 2023, sans toutefois retrouver le niveau de fréquentation Pré Covid. Le plaisir de la sortie au restaurant reste une motivation forte. Pour continuer à en profiter, une majorité de consommateurs met en place de nouveaux arbitrages et attend que les restaurateurs répondent présents en termes de services, de prix et/ou d'expériences.

Le marché de la restauration rapide reste dominant, représentant 43 % du marché en 2021, avec une forte augmentation des commandes à emporter (+35 %), des livraisons à domicile (+25 %), et du click & collect (+50 %). Les produits bio gagnent en popularité (+13,5 %), tout comme les options végétariennes et véganes (+20 %). Les consommateurs préfèrent de plus en plus les établissements écoresponsables (30 %).

L'expérience client est cruciale pour 40 % des consommateurs, surtout en période d'inflation.

La restauration hors site et les menus influencés par les réseaux sociaux sont en pleine expansion. L'innovation dans les boissons alcoolisées et la lutte contre le gaspillage alimentaire sont prioritaires. Les articles de menu à base de plantes stimulent les ventes, aidés par l'intégration technologique.

Le café, la cuisine asiatique et mexicaine sont de plus en plus demandés. Les préoccupations ESG influencent les choix des consommateurs et les stratégies des marques. Les chaînes de restauration et la crise du coût de la vie façonnent l'avenir du secteur.

After the euphoria of being able to meet in person again after the pandemic, the sector is seeing sustained annual growth in 2023, but footfall traffic stays short of pre-Covid levels. The appeal of dining out remains a strong motivation. But to keep affording it, a majority of consumers are rethinking their decision-making and expect food service establishments to deliver on service, prices and/or experience.

The fast-food sector remains dominant, accounting for 43% of the market in 2021, with significant increases in takeout orders (+35%), home deliveries (+25%), and click & collect (+50%). Organic products are gaining popularity (+13.5%), as are vegetarian and vegan options (+20%). Consumers are increasingly favoring eco-friendly establishments (30%).

Customer experience is crucial for 40% of consumers, especially during inflationary periods. Off-site dining and social media-influenced menus are rapidly expanding. Innovation in alcoholic beverages and the fight against food waste are priorities. Plant-based menu items drive sales, supported by technological integration.

Coffee, Asian, and Mexican cuisines are increasingly in demand. ESG concerns are strongly influencing consumer choices and brand strategies. Restaurant chains are key drivers of global market growth, and the cost-of-living crisis is shaping the future of the industry.

Les exposants présentés dans ce guide proposent des produits, services ou matériels s'adressant au marché spécifié en première de couverture. Leur inscription a été réalisée sur la base de leur déclaration. Ce document a été réalisé au moyen de renseignements obtenus avant le 27 Septembre 2024. L'organisateur n'est en aucun cas responsable des modifications intervenues depuis cette date, des omissions, erreurs de reproduction, de composition ou autres, qui auraient pu se produire dans ce document.

The exhibitors listed in this guide propose products, services or equipment addressing the sector specified on the cover page. The registration was realized on the basis of their declaration. This document was realized by means of information obtained before September, the 27th of 2024. The organizer shall therefore not be held responsible for any modifications, omissions or errors that may have occurred since this date.

PARCOURS THÉMATIQUE
PRODUITS HALAL
HALAL PRODUCTS
THEMATIC TOUR

DANS L'ISLAM, LE MOT HALAL désigne ce qui est permis par l'Islam. L'alimentation halal interdit toute alimentation basée sur le porc (gélatine de porc, viande de porc,...), ainsi que tout alcool, qu'il soit intégré dans l'alimentation ou dans d'autres utilisations.

IN ISLAM, THE WORD HALAL means "what is allowed by Islam". Halal food forbids any food made with pork (pork gelatine, pork meat, etc.) and any alcohol whether it is used in food preparation or served as a drink.

MARCHÉS & TENDANCES

MARKETS & TRENDS

Le marché halal connaît une expansion rapide, représentant près d'un cinquième du marché alimentaire mondial avec des perspectives de croissance soutenue. Dans certains pays, sa présence s'accroît particulièrement lors des fêtes religieuses, comme en France où le Ramadan génère 30% des ventes halal annuelles selon l'IRI.

Bien que la viande reste le secteur prédominant, le marché halal s'étend à de nombreux produits alimentaires. Ces dernières années, on observe une augmentation notable de la demande pour les confiseries, le chocolat et le snacking. Ce marché dynamique se caractérise par une innovation constante.

Face aux défis inflationnistes, les professionnels du secteur doivent redoubler d'efforts pour innover tout en maîtrisant les coûts et les prix de revente. Malgré ces contraintes, le marché halal continue de croître, avec des prévisions optimistes pour les années à venir.

The halal market is experiencing rapid expansion, representing nearly one-fifth of the global food market with sustained growth prospects. In some countries, its presence is especially pronounced during religious holidays; for example, in France, Ramadan accounts for 30% of annual halal sales according to IRI.

While meat remains the dominant sector, the halal market is expanding into many other food products. In recent years, there has been a notable increase in demand for confectionery, chocolate, and snacks. This dynamic market is characterized by constant innovation.

Despite inflationary challenges, industry professionals must intensify efforts to innovate while managing costs and resale prices. Nevertheless, the halal market continues to grow, with optimistic forecasts for the coming years.

Les exposants présentés dans ce guide proposent des produits, services ou matériels s'adressant au marché spécifié en première de couverture. Leur inscription a été réalisée sur la base de leur déclaration. Ce document a été réalisé au moyen de renseignements obtenus avant le 27 Septembre 2024. L'organisateur n'est en aucun cas responsable des modifications intervenues depuis cette date, des omissions, erreurs de reproduction, de composition ou autres, qui auraient pu se produire dans ce document.

The exhibitors listed in this guide propose products, services or equipment addressing the sector specified on the cover page. The registration was realized on the basis of their declaration. This document was realized by means of information obtained before September, the 27th of 2024. The organizer shall therefore not be held responsible for any modifications, omissions or errors that may have occurred since this date.

MARCHÉS & TENDANCES

MARKETS & TRENDS

Le marché des produits casher connaît une croissance significative dans plusieurs régions du monde. En Amérique du Nord, ce marché domine avec des prévisions de croissance soutenues jusqu'en 2031. Les États-Unis et le Canada, en particulier, affichent une forte demande de produits casher, non seulement au sein des communautés juives, mais aussi parmi les consommateurs non-juifs.

En Europe, la France, l'Allemagne, le Royaume-Uni, l'Italie et l'Espagne se distinguent comme des acteurs clés. En France, la demande pour les produits casher continue de croître, soutenue par l'intérêt croissant pour des produits alimentaires de haute qualité conformes aux normes religieuses.

Dans la région Asie-Pacifique, le marché des produits casher est en pleine expansion, avec une estimation de 7,4 milliards USD d'ici 2027. Des pays comme l'Australie, l'Inde et la Corée du Sud connaissent une forte croissance, alimentée par l'augmentation de la population millénaire et la demande croissante pour des aliments casher.

La demande croissante pour des produits casher est alimentée par les consommateurs recherchant pureté, qualité et sécurité alimentaire. Cette tendance est particulièrement marquée dans les zones urbaines avec une population active croissante. Les milléniaux, notamment dans la région Asie-Pacifique, stimulent le marché en quête d'options alimentaires saines et éthiques.

Les entreprises répondent à cette demande en diversifiant leurs gammes de produits, offrant une variété accrue de saveurs et de types de produits casher. Par exemple, Nestlé a lancé plusieurs nouvelles saveurs de céréales de petit-déjeuner casher. De plus, la montée du commerce électronique favorise la croissance des ventes en ligne de produits casher, facilitant leur accès à une clientèle plus large.

The kosher product market is experiencing significant growth across various regions. In North America, the market is dominant with sustained growth projections through 2031. The United States and Canada, in particular, show strong demand for kosher products, not only within Jewish communities but also among non-Jewish consumers.

In Europe, key players include France, Germany, the United Kingdom, Italy, and Spain. In France, the market for kosher products is expected to continue expanding, driven by increased demand for high-quality food products that comply with religious regulations.

In the Asia-Pacific region, the kosher market is rapidly growing, with an estimated value of USD 7.4 billion by 2027. Countries such as Australia, India, and South Korea are showing strong growth, fueled by a rising millennial population and increased demand for kosher foods.

There is a growing demand for kosher products driven by consumers seeking purity, quality, and food safety. This trend is particularly noticeable in urban areas with increasing working populations. Millennials, especially in the Asia-Pacific region, are fueling the market as they look for healthy and ethical food options.

Companies are responding to this demand by diversifying their product ranges, offering a wider variety of kosher flavors and product types. For instance, Nestlé has introduced several new kosher breakfast cereal flavors. Additionally, the rise of e-commerce is boosting online sales of kosher products, making them more accessible to a broader customer base.

Les exposants présentés dans ce guide proposent des produits, services ou matériels s'adressant au marché spécifié en première de couverture. Leur inscription a été réalisée sur la base de leur déclaration. Ce document a été réalisé au moyen de renseignements obtenus avant le 27 Septembre 2024. L'organisateur n'est en aucun cas responsable des modifications intervenues depuis cette date, des omissions, erreurs de reproduction, de composition ou autres, qui auraient pu se produire dans ce document.

The exhibitors listed in this guide propose products, services or equipment addressing the sector specified on the cover page. The registration was realized on the basis of their declaration. This document was realized by means of information obtained before September, the 27th of 2024. The organizer shall therefore not be held responsible for any modifications, omissions or errors that may have occurred since this date.

MARCHÉS & TENDANCES MARKETS & TRENDS

En 2024, les principales tendances de la FoodTech incluent une utilisation accrue de l'intelligence artificielle dans la production alimentaire, le développement de protéines alternatives, et un focus renforcé sur la durabilité et la réduction du gaspillage. Les aliments fonctionnels gagnent en popularité, tout comme les nouvelles technologies alimentaires, notamment la viande cultivée en laboratoire.

En France, des startups comme Gourmey et Vital Meat se distinguent dans le domaine de la viande de synthèse, tandis que Feed se concentre sur les produits alimentaires fonctionnels. Le marché français de la FoodTech est en pleine expansion avec des innovations dans la livraison de repas, les solutions anti-gaspillage, et les technologies avancées. Les défis incluent un cadre réglementaire complexe, mais les opportunités se situent dans le développement de solutions durables et l'amélioration de la santé des consommateurs.

In 2024, major FoodTech trends include increased use of artificial intelligence in food production, development of alternative proteins, and a focus on sustainability and waste reduction. Functional foods are gaining popularity, along with new food technologies such as lab-grown meat.

In France, startups like Gourmey and Vital Meat are leading in synthetic meat, while Feed focuses on functional food products. The French FoodTech market is expanding with innovations in meal delivery, waste reduction solutions, and advanced technologies. Challenges include a complex regulatory framework, but opportunities lie in developing sustainable solutions and enhancing consumer health.

SIAL STARTUP

Avec #OwntheChange, SIAL Paris transcende l'approche produit et se place du côté des solutions innovantes. Les changements à venir dans l'agriculture et l'agroalimentaire, poussent les entreprises à innover. À SIAL Paris, nous donnons à nos exposants et nos visiteurs les clés pour créer des solutions d'avenir. Les start-ups françaises et internationales présentent au SIAL Paris 2024 répondent au besoin de nouveaux produits, meilleurs pour l'environnement, plus sains. Vous pourrez aussi retrouver celles qui réinventent la restauration, celles qui accompagnent les industriels sur leur politique zéro déchet par exemple. Celles qui répondent aux défis de la livraison alimentaire ainsi que celles qui innovent dans le secteur de la distribution. Pour la première fois cette année, des projets en phase d'early stage seront également exposés au SIAL Start-up.

Venez à la rencontre de ces jeunes pousses dans le Hall 6 du salon.

With #OwnTheChange, SIAL Paris highlights innovative solutions! The upcoming changes in future sectors such as agriculture and agri-food are pushing companies to innovate. At SIAL, we will give our exhibitors and visitors the keys to creating solutions for the future. These French and international start-ups will notably respond to the desire for new products, better for the environment and healthier. You will also find those which are reinventing the restaurant business or targeting manufacturers by accompanying them, for example, on their zero waste policy. Those which respond to the challenges of food delivery will also be present as well as those which innovate in the retail sector. For the first time this year, early-stage projects will also be showcased at the SIAL Start-up.

Come and meet these promising companies in show's Hall 6.

Qu'est-ce que la marque Taste France ?

Cette marque institutionnelle a été créée pour promouvoir la gastronomie, l'agroalimentaire et l'agriculture française à l'international, autour de cinq valeurs : **l'excellence, la responsabilité, le plaisir, l'authenticité et l'innovation.**

Avec en ligne de mire : le goût, la qualité, la sécurité, la simplicité et le respect environnemental. Cette marque est pilotée par **le Ministère de l'Agriculture et de la Souveraineté Alimentaire** et déployée en B to B et en B to C, réunissant les interprofessions des secteurs agricole et agroalimentaire (incluant les boissons alcoolisées - vins, spiritueux, bières et cidres).

Taste France a pour vocation de **fédérer et de promouvoir l'ensemble des filières** pour leur donner une caisse de résonance plus puissante à l'international, en parlant d'une seule et même voix au nom de tous les acteurs. Taste France a pour objectif de rendre accessible tous les produits français dans les cuisines du monde ou lors de moments de convivialité, des produits répondant à des exigences de sécurité et de qualité élevées.

En savoir plus sur Taste France :

BtoB

www.tastefranceforbusiness.com

BtoC

www.tastefrance.com

What is the Taste France brand ?

This institutional brand was created to promote French gastro-nomy, agro-food and agriculture internationally, around five values: **excellence, responsibility, enjoyment, authenticity and innovation.**

All with the focus on: taste, quality, safety, simplicity and environmental respect. The brand is steered by **the Ministry of Agriculture and Food Sovereignty**, deployed on the BtoB and on the BtoC segments, which encompasses the agricultural and agro-food sectors (including wines, spirits, beers & ciders).

The purpose of Taste France is to **unite and promote all sectors** so that they can enjoy a more powerful sounding board interna-tionally, speaking with one voice on behalf of all players. Through a wider accessibility, Taste France's intention is to invite French products and drinks to everyone's daily meals or sharing moments while guaranteeing high food standards and quality.

**D'ICI 2032 POUR LE MARCHÉ DES ALIMENTS
RESPECTUEUX DE L'ENVIRONNEMENT**
BY 2032 FOR THE ECO-FRIENDLY FOOD MARKET

PAYS LEADERS

LEADING COUNTRIES

- **Amérique du Nord** : sensibilisation et adoption de pratiques durables.
North America: awareness and adoption of sustainable practices.
- **Europe & Asie-Pacifique**: réglementations strictes, conscience environnementale, tendances de consommation.
Europe & Asia-Pacific strict regulations, environmental awareness, consumer trends.

PRINCIPAUX ACTEURS

KEY PLAYERS

- **Leaders mondiaux / Global leaders:**
Beyond Meat, General Mills, Tyson Foods, Kellogg Company, Archer Daniels Midland, PepsiCo, Cargill, Campbell Soup Company, Hain Celestial Group.
- **Principales enseignes en France / Main chains in France:**
Biocoop, La Vie Claire, Naturalia, Bonneterre, Priméal, Soy.

LABELS ET CERTIFICATIONS

LABELS AND CERTIFICATIONS

- **Demeter** :
Agriculture biodynamique.
Biodynamic agriculture.
- **Fairtrade/Commerce équitable** :
Revenus décents et conditions de travail justes.
Decent incomes and fair working conditions.
- **Rainforest Alliance** :
Durabilité de la production agricole et préservation des écosystèmes.
Sustainable agricultural production and preservation of ecosystems.
- **Marine Stewardship Council (MSC)** :
Produits de la pêche durable.
Sustainable fishing products
- **UTZ Certified**
Durabilité et traçabilité du café, cacao, thé et noisettes.
Sustainability and traceability of coffee, cocoa, tea and hazelnuts.

MARCHÉS & TENDANCES MARKETS & TRENDS

Le marché des aliments respectueux de l'environnement et durables devrait passer d'environ 95 milliards USD en 2022 à environ 170,8 milliards USD d'ici 2032 avec un CAGR de 6,2 % de 2023 à 2032. Les aliments durables englobent la production, la distribution et la consommation de produits alimentaires qui minimisent l'impact environnemental, préservent les ressources naturelles, soutiennent le bien-être des communautés et garantissent la viabilité économique pour les générations futures. Cela peut inclure des pratiques comme l'agriculture biologique, l'agroforesterie, la permaculture et l'agriculture régénératrice, favorisant la santé des sols, la conservation de l'eau, la biodiversité et la réduction des intrants chimiques.

Les tendances mondiales actuelles montrent un engagement croissant envers la durabilité dans le secteur alimentaire. L'utilisation d'ingrédients locaux pour réduire l'empreinte carbone est de plus en plus répandue. L'adoption de systèmes à faible débit d'eau permet de conserver cette précieuse ressource. L'agriculture sans produits chimiques favorise une production plus écologique, tandis que l'utilisation d'emballages compostables réduit les déchets plastiques. De plus, l'intégration de panneaux solaires photovoltaïques pour une énergie renouvelable devient une pratique courante. Enfin, l'augmentation des options d'ingrédients à base de plantes répond à la demande croissante de durabilité. Ces initiatives montrent la voie vers un avenir plus respectueux de l'environnement et durable pour l'industrie alimentaire.

The market for environmentally friendly and sustainable foods is expected to grow from approximately USD 95 billion in 2022 to around USD 170.8 billion by 2032, with a CAGR of 6.2% from 2023 to 2032. Sustainable foods encompass the production, distribution, and consumption of food products that minimize environmental impact, preserve natural resources, support community well-being, and ensure economic viability for future generations. This includes practices such as organic farming, agroforestry, permaculture, and regenerative agriculture, which promote soil health, water conservation, biodiversity, and the reduction of chemical inputs.

Current global trends show a growing commitment to sustainability in the food sector. The use of local ingredients to reduce carbon footprints is becoming increasingly widespread. The adoption of low-flow water systems helps conserve this precious resource. Chemical-free agriculture promotes more ecological production, while the use of compostable packaging reduces plastic waste. Additionally, the integration of photovoltaic solar panels for renewable energy is becoming common practice. Finally, the increase in plant-based ingredient options meets the growing demand for sustainability. These initiatives pave the way for a more environmentally friendly and sustainable future for the food industry.

LES ENGAGEMENTS RSE DE SIAL PARIS

SIAL Paris s'engage pour un avenir plus durable ! Découvrez comment nos actions concrètes en matière de responsabilité sociétale transforment l'industrie agroalimentaire. **Du respect de l'environnement à l'inclusion, nous mobilisons exposants, visiteurs et partenaires pour façonner un salon plus responsable, ensemble.**

La Responsabilité Sociétale des Entreprises (RSE) est devenue un enjeu incontournable dans le monde actuel. Face aux défis environnementaux et sociaux croissants, il est essentiel pour nous de repenser nos pratiques et d'intégrer des actions durables dans notre stratégie.

Notre engagement ne se limite pas à une simple tendance ou à une obligation légale ; il s'agit d'une nécessité pour assurer la pérennité de notre planète et de notre marché.

En tant que leader mondial des salons agroalimentaires, SIAL Paris prend à cœur sa responsabilité et s'engage à promouvoir des pratiques respectueuses de l'environnement tout en renforçant son impact social.

SIAL Paris, un salon durable et éco-responsable autour de 5 engagements :

- #1** - Organiser SIAL Paris dans une démarche de développement durable
- #2** - Réduire l'impact carbone du salon
- #3** - Encourager nos exposants à accompagner la transformation durable de la filière agroalimentaire
- #4** - Sensibiliser nos visiteurs à vivre SIAL Paris de manière responsable
- #5** - Mettre en place des événements au service de la performance économique de nos communautés

CSR COMMITMENTS OF SIAL PARIS

*SIAL Paris is committed to a more sustainable future!
Discover how our concrete actions in terms of social
responsibility are transforming the food industry.*

***From respect for the environment to inclusion, we are
mobilising exhibitors, visitors and partners to shape
a more responsible show, together.***

*Corporate Social Responsibility (CSR) has become a key
issue in today's world. Faced with growing environmental
and social challenges, it is essential for us to rethink
our practices and integrate sustainable actions into our
strategy.*

*Our commitment is not simply a trend or a legal obligation;
it is a necessity to ensure the sustainability of our planet
and our market.*

*As the world's leading food trade fair, SIAL Paris takes
its responsibility to heart and is committed to promoting
environmentally practices while strengthening its social
impact.*

SIAL Paris, a sustainable and eco-responsible trade show built around 5 commitments:

- #1 - Organising SIAL Paris as part of a sustainable
development approach***
- #2 - Reducing the show's carbon impact***
- #3 - Encouraging our exhibitors to support the sustainable
transformation of the food industry***
- #4 - Encouraging our visitors to experience SIAL Paris
responsibly***
- #5 - Setting up events to boost the economic performance
of our communities***

et le programme d'engagement
"ALL INVOLVED" de Comexposium.**

***Discover SIAL Paris' CSR charter
and Comexposium's "ALL INVOLVED"
commitment program.***

#OWN THE CHANGE

La RSE est au cœur des préoccupations de **SIAL Paris**, et ce sujet irradie à travers chacune de nos actions (SIAL Talks, concours, expérience sur le salon) pour répondre aux **enjeux environnementaux et alimentaires** de demain avec une détermination inébranlable.

La transparence est au centre de notre démarche, tout comme l'impact que nous pouvons avoir sur nos écosystèmes. SIAL Paris s'impose comme le rendez-vous incontournable pour catalyser la transformation d'une **industrie agroalimentaire** plus éthique, durable, et socialement responsable en favorisant la prise de conscience, défrichant les problématiques opérationnelles, et surtout en montrant l'exemple.

Chaque Summit sera suivi d'un temps d'échange convivial et rafraîchissant entre speakers et participants.

Le Summit RSE aura lieu le dimanche 20 octobre sur la scène de SIAL Talks dans le Hall 5A.

**Programme premium et payant sur réservation*

*CSR is at the heart of **SIAL Paris's** concerns, and this subject permeates every one of our actions (SIAL Talks, competitions, experiences at the show) to meet tomorrow's **environmental and food challenges** with unwavering determination.*

*Transparency is at the heart of our approach, as is the impact we can have on our ecosystems. SIAL Paris has established itself as the key event for catalysing the transformation of a more ethical, **sustainable and socially responsible food industry** by raising awareness, breaking down operational issues and, above all, setting an example.*

The CSR Summit will take place on Sunday October 20th on the SIAL Talks stage in Hall 5A.

**Premium and paying program with reservation*

SIAL FOR CHANGE

Dans ce mouvement #Ownthechange, nous devons collectivement anticiper un futur dans lequel la prise en compte des **enjeux sociaux, sociétaux et environnementaux** est indispensable.

C'est donc dans ce cadre que SIAL Paris lance son premier prix dédié à la **Responsabilité Sociale des Entreprises (RSE)** en partenariat avec l'agence RSE Hyssop : SIAL For Change. Cette initiative marque une nouvelle étape dans les engagements du salon à promouvoir des pratiques durables et socialement responsables au sein de l'**industrie alimentaire** mondiale et tout au long de la chaîne de valeur des produits et des services.

Le prix SIAL For Change vise à mettre en lumière et à récompenser les entreprises exposantes qui inscrivent la RSE dans leur stratégie et intègrent des pratiques durables dans leurs opérations contribuant ainsi à un avenir plus équitable, humain et respectueux de l'environnement.

Au-delà d'une dimension compétitive, SIAL Paris offre une opportunité de partager ces initiatives remarquables et de positionner ces acteurs en tant que leader inspirant de la durabilité au sein de notre industrie.

La remise des prix de SIAL for Change aura lieu le mardi 22 octobre à 17h sur la scène de SIAL Talks dans le Hall 5A.

*In this movement around #ownthechange, we must collectively anticipate a future in which it will become imperative to take account of **social, societal and environmental considerations**.*

*In view of this, **SIAL Paris**, working in association with the CSR consultancy Hyssop, is launching its first award dedicated to **Corporate Social Responsibility (CSR)**: SIAL For Change. This initiative marks a new step in the show's commitments to promoting sustainable and socially responsible practices in the global **food industry**, and throughout the product and service value chain.*

*The award SIAL For Change aims to shine a light on and distinguish exhibiting companies that have incorporated CSR into their strategy and built their operations around sustainable practices, thereby contributing to a fairer and more human and **environmentally** responsible future.*

Beyond competing in a contest, SIAL Paris offers participants the chance to share these outstanding initiatives and position themselves as inspiring leaders in sustainability in our industry.

The SIAL for Change awards ceremony will take place on Tuesday October 22nd at 5pm on the SIAL Talks stage in Hall 5A.

La société la Biscuiterie de l'Abbaye, entreprise du patrimoine vivant et labellisée PME+ a été élue grand lauréat de cette première édition SIAL for Change.

L'entreprise a été choisie pour la transversalité de son engagement sur les volets sociaux, environnementaux, et sociétaux de la RSE. Elle met en place des actions pour réduire l'impact environnemental de ses ingrédients, à commencer par l'accompagnement de la filière de farine CRC, 50% du CA réalisé en produits biologiques, mais aussi des actions sur le packaging (biscuits pour la distribution en vrac etc.)...

Sur le pilier social, l'entreprise alloue un budget annuel de 60 k€ pour améliorer les conditions de travail et de 50 k€ pour la qualité de vie au travail. Elle prend en charge la prévoyance santé à 60%, met à disposition 3 jours de «garde d'enfants malades» par an avec maintien de salaire, etc. Les collaborateurs sont impliqués dans la politique RSE de l'entreprise avec des groupes de travail, des formations métiers, un réseau d'ambassadeurs... 20% de l'effectif salarié est impliqué dans une cellule d'amélioration continue. L'entreprise est également à l'écoute de ses parties prenantes en évaluant chaque année leurs attentes. Sur la dimension sociétale, l'entreprise est membre du 1% for the Planet, effectue de nombreux dons alimentaires et soutient des associations locales (festivals, conservatoire des espaces naturels...). Elle veille par ailleurs activement à réduire le gaspillage alimentaire, que ce soit par la réincorporation de biscuits cassés, la vente de produits déclassés dans sa boutique, la réduction des pertes en production par l'action d'une cellule d'amélioration continue dédiée au sujet, ou encore la revalorisation pour produire de l'alimentation animale. Le jury salue le dynamisme de l'entreprise au regard de son ancienneté (1961) et de sa dimension (265 employés).

La Biscuiterie de l'Abbaye, a living heritage company with the PME+ label, is the grand prizewinner of this 1st edition of SIAL for Change.

The company was chosen for its cross-functional commitment to the social, environmental and societal aspects of CSR.

It is implementing actions to reduce the environmental impact of its ingredients, starting with support for the CRC flour chain, with 50% of sales generated by organic products, but also actions on packaging (cookies for bulk distribution, etc.)... On the social pillar, the company allocates an annual budget of 60 k€ to improving working conditions and 50 k€ to quality of life at work. It covers 60% of the company's health insurance, and provides 3 days' sick leave per year with salary continuation, etc.

Employees are involved in the company's CSR policy through working groups, job training, a network of ambassadors... 20% of the workforce is involved in a continuous improvement unit. The company also listens carefully to its stakeholders, assessing their expectations every year.

On the social front, the company is a member of 1% for the Planet, makes numerous food donations and supports local associations (festivals, conservatory of natural areas, etc.). It is also actively involved in reducing food waste, whether through the reincorporation of broken cookies, the sale of downgraded products in its boutique, the reduction of production losses through the action of a continuous improvement unit dedicated to the subject, or recycling to produce animal feed. The jury praised the company's dynamism, given its age (1961) and size (265 employees).

Suite au jury SIAL for Change, 4 coups de cœur ont été reconnus pour leur audace compte tenu de leur contexte (dimension, zone géographique...):

Following the SIAL for Change jury, 4 "favorites" were recognized for their audacity, given their context (size, geographical area, etc.):

♥ **Lionheart Farms**, entreprise originaire des Philippines qui produit des boissons et des condiments, a mis en place un projet d'agroforesterie de montagne dans des broussailles et des prairies dégradées, en partenariat avec le ministère philippin de l'environnement et des ressources naturelles. L'entreprise est saluée par le jury pour avoir mis en place ce projet dans un cadre où la culture du palmier a longtemps servi à la déforestation. Les ingrédients sont issus d'agriculture biologique, et régénératrice. En collaborant avec les populations 1 Label officiel français, créé en 2005, délivré sous l'autorité du ministère de l'Économie et des Finances, afin de distinguer des entreprises françaises aux savoir-faire artisanaux et industriels jugés comme d'excellence 3 autochtones et les ONG, l'entreprise veille à faire progresser les communautés. Lionheart Farms montre également des efforts au niveau social avec par exemple 75% de femmes dans les effectifs parmi les cadres.

Lionheart Farms, a beverage and condiment company from the Philippines, has set up a mountain agroforestry project in degraded scrubland and grasslands, in partnership with the Philippine Department of Environment and Natural

Resources. The company was praised by the jury for having set up this project in a setting where palm cultivation has long been used for deforestation. The ingredients are organic and regenerative. By collaborating with local 1 Official French label, created in 2005 and issued under the authority of the Ministry of the Economy and Finance, to distinguish French companies with artisanal and industrial know-how[1] deemed to be of excellence 3 and NGOs, the company ensures that communities progress. Lionheart Farms also demonstrates its efforts on the social front, with, for example, 75% women in management positions.

- ♥ **Andriani S.p.A.**, entreprise italienne BCorp et Società Benefit (= entreprise à mission en Italie), produit des pâtes sans gluten à partir de céréales et légumineuses issus de l'agriculture biologique. L'entreprise suit sa politique RSE avec de nombreux indicateurs sur toutes les thématiques. Elle a même fait réaliser une étude par l'université de NAPOLI FEDERICO II pour mesurer l'indice glycémique de ses produits. L'entreprise agit également sur l'économie des ressources, par exemple via la récupération de l'eau de production pour cultiver des algues spiruline utilisées pour les pâtes à la spiruline de sa marque propre Felicia, ou encore la récupération des sous-produits pour faire de la nourriture pour animaux de compagnie. Sur le volet social, divers dispositifs (gymnase d'entreprise, camp d'été pour les enfants des salariés...) sont mis à disposition gratuitement pour les salariés.

Andriani S.p.A., an Italian BCorp and Società Benefit (= company with a mission in Italy), produces gluten-free pasta from organically grown cereals and pulses. The company follows its CSR policy with numerous indicators on all themes. It has even commissioned a study by the University of NAPOLI FEDERICO II to measure the glycemic index of its products. The company also takes action to save resources, for example by recovering production water to grow spirulina algae used for its own-brand Felicia spirulina pasta, or by recovering by-products to make pet food.

On the social front, various facilities (company gym, summer camp for employees' children, etc.) are made available free of charge to employees.

- ♥ **Limbua**, entreprise germano-kenyane, couvre la chaîne d'approvisionnement des noix de macadamia depuis la pépinière jusqu'à l'export et à la distribution mondiale, avec une traçabilité complète. Au-delà de l'agriculture biologique pratiquée pour l'ensemble de ses exploitations, l'entreprise va chercher des certifications très exigeantes comme la certification RCO (Regenerative Organic Certified). Par ailleurs, aucune irrigation artificielle n'est réalisée grâce aux précipitations annuelles, et des cultures de variétés diverses sont effectuées afin de réduire la perte de biodiversité et d'éviter que les agriculteurs dépendent d'une seule culture (sécurité financière). L'entreprise opère un véritable rôle d'accompagnement des petits exploitants, qui sont

régulièrement audités. D'autre part, les noix de macadamia sont cassées manuellement afin de réduire la consommation énergétique et de créer des emplois dans une région rurale du Kenya, permettant ainsi d'éviter l'exode rural (400 emplois ont été créés). Les employés saisonniers ont la possibilité de reprendre leur poste la saison suivante. À long terme, Limbua vise à proposer aux salariés de devenir employés permanents. L'entreprise cotise aux assurance maladie, soins infirmiers et retraite, ce qui est inhabituel en Afrique. Sur le volet sociétal, l'entreprise expose également de bonnes pratiques comme la revalorisation de l'intégralité des noix de macadamia (coquille, peau...) ou encore, via sa fondation, la formation des enfants à l'agriculture biologique avec pratique dans les jardins de leurs écoles.

Limbua, a German-Kenyan company, covers the macadamia nut supply chain from nursery to export and worldwide distribution, with full traceability. In addition to the organic farming practised on all its farms, the company also seeks highly demanding certifications such as RCO (Regenerative Organic Certified). In addition, no artificial irrigation is carried out thanks to annual rainfall, and crops of diverse varieties are grown to reduce biodiversity loss and avoid farmers' dependence on a single crop (financial security). The company plays an active role in supporting smallholders, who are regularly audited. In addition, macadamia nuts are cracked by hand to reduce energy consumption and create jobs in a rural region of Kenya, helping to prevent rural exodus (400 jobs have been created). Seasonal employees have the opportunity to return to work the following season. In the long term, Limbua aims to offer employees the chance to become permanent employees. The company contributes to health, nursing and pension insurance, which is unusual in Africa. In terms of social responsibility, the company also promotes good practices such as the recycling of all macadamia nuts (shell, skin, etc.) and, via its foundation, the training of children in organic farming with practical application in their school gardens.

♥ **Cherubino Valsangiacomo Bodega**, entreprise viticole espagnole, a mis en place plusieurs bonnes pratiques pour réduire l'impact environnemental de ses matières premières : certification bio, agriculture régénératrice, pas d'irrigation, couvert végétal, aménagements (hôtels à insectes etc.)... et de ses packagings : bouteilles en verre plus légères, 90% des matériaux recyclés, développement (en cours) d'un système de consigne au niveau local chez les distributeurs, etc. L'entreprise affiche par ailleurs négocier les prix de ses matières premières au-dessus de ceux fixés par le marché. Sur le volet social, elle déclare mettre en place une restauration gratuite pour le déjeuner, ainsi qu'un aménagement des emplois du temps en été pour contourner les chaleurs excessives espagnoles. Sur le plan sociétal, Cherubino Valsangiacomo Bodega propose des

boissons avec un taux modéré en alcool (5.5% alc. vol.) et met en place diverses actions locales comme un projet de vin solidaire dont les bénéfices sont reversés à une association de défense de la faune et de la flore de la région.

***Cherubino Valsangiacomo Bodega**, a Spanish wine company, has implemented a number of best practices to reduce the environmental impact of its raw materials: organic certification, regenerative agriculture, no irrigation, plant cover, landscaping (insect hotels, etc.)... and its packaging: lighter glass bottles, 90% of materials recycled, development (in progress) of a local deposit system at distributors, etc. The company also claims to negotiate prices for its raw materials above those set by the market. On the social front, it states that it is setting up a free catering service for lunch, as well as an adjustment of summer schedules to get around the excessive Spanish heat. On the social front, Cherubino Valsangiacomo Bodega offers beverages with a moderate alcohol content (5.5% alc. vol.) and implements various local actions, such as a solidarity wine project whose profits are donated to an association for the defense of the region's flora and fauna*

8 autres entreprises ont attiré l'attention du jury SIAL for Change:

8 other companies attracted the attention of the SIAL for Change jury:

CHEF SEASONS GIDA SAN VE TIC LTD STI : Entreprise turque avec un engagement fort sur la dimension sociale dans un pays où les standards sont moins élevés qu'en occident, ainsi que des herbes et épices issues d'agriculture biologiques et une réduction de l'impact climatique des produits pour la dimension environnementale.

***CHEF SEASONS GIDA SAN VE TIC LTD STI**: Turkish company with a strong commitment to the social dimension in a country where standards are lower than in the West, as well as organic herbs and spices and a reduction in the climatic impact of products for the environmental dimension.*

DASH WATER: Entreprise BCorp, engagée fortement contre le gaspillage alimentaire via la proposition de boissons non alcoolisées infusées avec des fruits abimés. Sur la dimension sociale, l'entreprise met en place diverses actions pour améliorer l'équilibre vie pro/vie perso de ses collaborateurs (5 congés de plus que le minimum légal, congés parental et d'adoption améliorés...).

DASH WATER: BCorp is strongly committed to combating food waste by offering soft drinks infused with spoiled fruit. On the social front, the company has taken various steps to improve the work/life balance of its employees (5 more vacations than the legal minimum, improved parental and adoption leave, etc.).

ENGLISH TEA SHOP: Entreprise BCorp de thé détenue en grande partie par ses employés, qui utilise des ingrédients issus à 100% de l'agriculture biologique provenant principalement de petits agriculteurs du Sri Lanka. L'entreprise dispose également de la certification Fair trade et d'un programme qui verse une allocation mensuelle aux parents salariés pour la santé ou l'éducation de leurs enfants (programme également étendu aux enfants d'agriculteurs).

ENGLISH TEA SHOP: BCorp's tea business is largely employee-owned, using 100% organic ingredients sourced mainly from small farmers in Sri Lanka. The company also has Fairtrade certification and a program that pays a monthly allowance to employed parents for their children's health or education (a program also extended to farmers' children).

GROUPE BEL: Entreprise engagée globalement depuis longtemps avec notamment des primes personnelles pour les salariés indexées sur les performances RSE du groupe. En 2023, 51% du chiffre d'affaires est réalisé avec des produits qui répondent à la fois à un défi nutritionnel (Bel Nutri+ ou contenant un additif maximum) et un défi environnemental (fabriqué à partir de lait de vaches pâturées ou nourries avec des aliments sans OGM, ou du lait biologique, ou un emballage moins impactant).

GROUPE BEL: A company with a long-standing global commitment, including personal bonuses for employees indexed to the group's CSR performance. By 2023, 51% of sales will be generated by products that meet both a nutritional challenge (Bel Nutri+ or containing a maximum of one additive) and an environmental challenge (made from milk from cows grazed or fed GMO-free feed, or organic milk, or less impactful packaging).

GROUPE JEAN HÉNAFF : Acteur très engagé sur son activité principale qui repose sur l'élevage du porc, très polluante, et qui par ailleurs cherche à diversifier son activité avec 82% des nouveaux produits végétaux. 85 % du chiffre d'affaires est par ailleurs réalisé par des produits sans additif.

GROUPE JEAN HÉNAFF: A highly committed player in its core business, which is based on pig breeding, a highly polluting activity, and which is also seeking to diversify its business with 82% of new plant-based products. 85% of sales are generated by additive-free products.

LSDH (LAITERIE DE SAINT-DENIS-DE-L'HÔTEL) : Entreprise très engagée depuis longtemps, avec une juste rémunération des producteurs de lait certifiée par des commissaires aux comptes, et prête à innover et lancer de nombreux projets à impacts même si elle se heurte parfois par une acceptabilité difficile du consommateur (par exemple avec le lancement de sachet de salade en papier sans fenêtre de transparence). L'entreprise fait également part d'un ancrage fort sur les territoires où elle est présente.

LSDH (LAITERIE DE SAINT-DENIS-DE-L'HÔTEL): *A company with a long-standing commitment to fair remuneration of milk producers, certified by auditors, and ready to innovate and launch numerous high-impact projects, even if it sometimes comes up against difficult consumer acceptance (for example, with the launch of paper salad bags without a transparency window). The company also demonstrates a strong commitment to the regions in which it operates.*

MADemoiselle Desserts : Entreprise BCorp, avec diverses actions sur les enjeux liés à son secteur d'activité (moins de sels, moins d'additifs, une consommation énergétique moindre par exemple via la récupération de la chaleur créée par les machines...). L'entreprise dispose d'un programme de R&D important.

MADemoiselle Desserts: *BCorp company, with various actions on issues linked to its sector of activity (less salts, less additives, lower energy consumption via, for example, the recovery of heat created by machines...). The company has an extensive R&D program.*

MAEIL DAIRIES CO., LTD : Entreprise coréenne avec de nombreux engagements : certification du bétail sans antibiotiques, produits bio, utilisation de matériaux recyclés pour les emballages, suppression des étiquettes, programme d'aide aux employés sur la gestion du stress et santé mentale, suppression de l'aspartame malgré l'approbation réglementaire...

MAEIL DAIRIES CO., LTD: *Korean company with numerous commitments: certification of antibiotic-free livestock, organic products, use of recycled materials for packaging, elimination of labels, employee assistance program on stress management and mental health, elimination of aspartame despite regulatory approval...*

CATEGORIES

4 catégories sont proposées :

- Produits de Grande Consommation (PGC)
- Produits Alimentaires Intermédiaires (PAI)
- Produits de la Restauration Hors Domicile (RHD)
- Produits Équipements et Technologies (ET)

4 categories are proposed:

- *Fast-moving consumer goods (FMCG)*
- *Intermediate Food Products (IFP)*
- *Food Service Products (FSS)*
- *Equipment and Technology Products (ET)*

LES GRANDS PRIX

MAIN AWARDS

Parmi les produits sélectionnés, 1 gagnant par catégorie est désigné comme innovation majeure et se voit remettre la distinction spéciale de Grand Prix SIAL Innovation. Les exposants dont les nouveautés sont primées reçoivent un trophée à l'occasion de la Cérémonie de remise de prix SIAL Innovation.

From among the products selected, 1 winner per category is chosen as a major innovation and awarded the special distinction of SIAL Innovation Grand Prix. The exhibitors whose innovations win the award receive a trophy at the SIAL Innovation Awards Ceremony.

PRIX SPÉCIAUX SPECIAL AWARDS

Cette année encore, SIAL Innovation remettra plusieurs prix spéciaux représentant les initiatives des exposants de SIAL Innovation. Le **prix Emballage by ALL4PACK EMBALLAGE PARIS** récompense l'emballage innovant offrant une solution durable et pratique. Le prix Own The Change honore l'initiative RSE la plus innovante. Le **prix Start-up** célèbre le produit le plus novateur d'une jeune entreprise.

*Once again this year, SIAL Innovation will be awarding several special prizes representing the initiatives of SIAL Innovation exhibitors. The **Packaging Award by ALL4PACK EMBALLAGE PARIS** recognizes innovative packaging offering a sustainable and practical solution. The **Own The Change award** honors the most innovative CSR initiative. The **Start-up award** celebrates the most innovative product from a young company.*

NOUVEAU! NEW!

Et pour faire le plein de nouveautés, SIAL Innovation met en place de nouveaux prix pour cette édition. Le **Prix Top 3 Pays** récompense les trois pays ayant proposé le plus de produits innovants, révélant ainsi leur force d'innovation.

Le **Prix Afrique** mettra en lumière l'innovation sur le marché africain, en lien avec l'une des thématiques phares de SIAL Summits 2024.

*And to keep things fresh, SIAL Innovation is introducing a number of new awards this year. **The Top 3 Countries Award** recognizes the three countries with the most innovative products, revealing their innovative strength.*

*The **Africa Award** will highlight innovation in the African market, in line with one of SIAL Summits 2024's flagship themes.*

À NE PAS MANQUER NOT TO BE MISSED

La cérémonie de remise des prix de SIAL Innovation aura lieu le 19 octobre à 16h sur la scène de SIAL Talks dans la galerie du 5A.

The SIAL Innovation awards ceremony will take place on October 19 at 4pm on the SIAL Talks stage in Hall 5A gallery.

ITCA 
ITALIAN TRADE AGENCY

ÉDITO

EDITORIAL

M. Francesco Lollobrigida,

Ministre de l'Agriculture, de la Souveraineté alimentaire et des Forêts, Italie
Minister of Agriculture, Food Sovereignty and Forestry, Italy

La nourriture est culture, histoire, art. Partant de ces prémisses, grâce à l'initiative du gouvernement italien, notre cuisine est aujourd'hui candidate au patrimoine immatériel de l'Unesco.

Un hommage que nous estimons pleinement mérité par l'Italie, non seulement pour l'excellence de la production que le monde nous reconnaît, mais aussi pour préserver les valeurs propres aux pratiques sociales et aux habitudes répandues qui font de la préparation et de la consommation du repas un moment de partage et de rencontre : le rituel collectif d'un peuple qui considère la nourriture comme un élément culturel identitaire.

Nos traditions culinaires sont nées de la créativité et de l'ingéniosité de femmes et d'hommes qui ont su transformer les ingrédients les plus simples en délices gastronomiques.

C'est dans ce même esprit de recherche d'amélioration continue que le travail inlassable de millions de personnes, allant des petites exploitations agricoles aux grandes industries alimentaires, permet à l'Italie d'être une superpuissance de la qualité. Je vous souhaite de vous sentir pleinement nos invités à l'occasion de ce « Percorso Italia », que vous vous apprêtez aujourd'hui à explorer.

Food is culture, history and art. Thanks to the initiative of the Italian government, our cuisine is now a candidate for the UNESCO intangible heritage status.

A tribute that we believe Italy rightfully deserves, not only for our Italian excellences that we are known for all over the world, but also for preserving our deep traditional values with today's Italian social practices and habits that has everything to do with the preparation and consumption of the meal. It's an essential moment of sharing and meeting in our daily lives. Italian people have always conceived food as their cultural element of identity. Our culinary traditions come from the creativity and know-how of men and women who were able to transform simple ingredients into fantastic gastronomic delights.

It is with that same strong spirit, contained in the hearts and minds of millions of people: from the small farmer as well as large food industries with the aim "to do better" which makes Italy a superpower of "quality." I hope that the "Percorso Italia" which you set out to explore today, will make you feel like one of our honored guests.

L'ICE - Agence italienne pour le commerce extérieur est l'agence gouvernementale qui contribue à l'internationalisation des entreprises italiennes sur les marchés étrangers et accompagne les investisseurs étrangers en Italie. Grâce à une organisation dynamique, impliquée et moderne et son réseau de bureaux dans le monde, l'ICE-Agence offre également des services d'information, d'assistance, de conseil, de promotion et de formation aux petites et moyennes entreprises italiennes.

Grâce à l'utilisation d'instruments innovants de promotion et de communication, ICE-Agence promeut l'attractivité de son territoire et l'image du Made in Italy à travers le monde.

ITA - Italian Trade Agency is the Governmental agency that supports the business development of italian companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

M. Matteo Zoppas,
Président, ITA - Italian Trade Agency
President, ITA - Italian Trade Agency

Bienvenue à la 60^e édition du SIAL, le Salon International de l'Alimentation de Paris dans lequel l'Italie, avec plus de 700 exposants, est le pays le plus représenté, démontrant l'appréciation de l'excellence et de la production du Made in Italy.

En Italie, la bonne alimentation est synonyme de durabilité, de terroir et d'une filière qui comprend 1,3 million d'entreprises et 3,6 millions d'employés. Il s'agit du deuxième secteur le plus important de l'économie italienne, avec un chiffre d'affaires de 607 milliards en 2023, équivalent à une croissance de 12% en 10 ans malgré les crises économiques, sanitaires, et les tensions géopolitiques.

La qualité de notre excellence agroalimentaire, la variété et la protection de la biodiversité sont confirmées par les 890 Indications Géographiques Italiennes AOP et IGP, sans égal en Europe. Des productions à protéger du phénomène de l'Italian Sounding, qui pèse environ 63 milliards.

ITA-Italian Trade Agency accompagne les entreprises italiennes dans leur parcours d'internationalisation avec les services offerts par son réseau de 87 bureaux dans 74 pays, notamment à travers la participation de collectives d'entreprises italiennes dans les principaux salons internationaux.

Welcome to the 60th edition of SIAL, Paris International Food Exhibition. Italy is the country with the largest presence with more than 700 exhibitors, confirming the appreciation for Italian excellences.

The culture of food in Italy is strongly linked with sustainability, bond with the territory and a supply chain that includes 1.3 million companies employing 3.6 million people. Food&wine is the second sector by revenues of the Italian economy, with 607 billion Euros revenues in 2023, +12% in ten years despite economic crises, the pandemic and geopolitical tensions.

The quality of our agri-food excellences, the variety of products and the protection of biodiversity is confirmed by 890 Italian Geographical Indications PDO and PGI a number unmatched in Europe. We must protect our production from the Italian Sounding which is valued around 63 billion euros.

ITA-Italian Trade Agency is helping Italian companies on their internationalization journey through services offered by a network of 87 offices in 74 Countries. Among those services the organization of exhibitions of Italian companies at the most renowned international trade fairs.

MARCHÉS & TENDANCES MARKETS & TRENDS

Aucun autre pays de l'Union européenne ne peut rivaliser avec l'Italie en matière de produits alimentaires et vitivinicoles certifiés

Avec 890 produits alimentaires et vins de haute qualité reconnus, l'Italie s'impose comme un champion incontesté. Ces certifications, validées par la législation européenne sous les labels AOP, IGP et STG, garantissent la qualité de ces produits. Les régions italiennes avec le plus grand nombre de produits certifiés sont emmenées par l'Émilie-Romagne, célèbre pour

ses spécialités emblématiques comme le Parmigiano Reggiano, le Prosciutto di Parma et l'Aceto Balsamico. Elle est suivie de près par la Vénétie et la Lombardie, cette dernière se distinguant notamment par sa production de fromages, dont le renommé Gorgonzola AOP.

Les produits italiens ne cessent d'incarner des valeurs d'authenticité et de durabilité tout en restant fidèle à leur identité.

No other country in the European Union can match Italy when it comes to certified food and wine products. With 890 recognized high-quality food and wine products, Italy is the undisputed champion. These certifications, validated by European legislation under the PDO, PGI and TSG labels, guarantee the quality of these products. The Italian regions with the highest number of certified products are led by Emilia-Romagna, famous for its emblematic specialties such as Parmigiano Reggiano, Prosciutto di Parma and Aceto Balsamico. It is closely followed by Veneto and Lombardy, the latter distinguished by its cheese production, including the renowned Gorgonzola PDO. Italian products continue to embody the values of authenticity and sustainability, while remaining true to their identity.

THEMATIC TOUR

COMEXPOSIUM

SIAL, une filiale du Groupe Comexposium

LES PAI (PRODUITS ALIMENTAIRES INTERMÉDIAIRES) réunissent les ingrédients, les produits semi-élaborés, les additifs destinés aux fabricants pour composer leurs recettes.

FOOD INGREDIENTS PRODUCTS gather ingredients, semi-processed products and additives for manufacturers to formulate their recipes.

LES INGRÉDIENTS SOUS LES FEUX DE LA RAMPE INGREDIENTS TAKING THE SPOTLIGHT

Selon une étude d'Allied Market Research, le marché Mondial des ingrédients agro-alimentaires a atteint 270,3 Mds \$ en 2021. Il est attendu à 475,4 Mds \$ en 2031.

Les fournisseurs d'ingrédients anticipent les tendances afin d'aider les industries agroalimentaires à répondre aux attentes des consommateurs en termes de santé, de développement durable, de plaisir, de naturalité et de praticité.

Travaillant main dans la main avec leurs clients, Ils proposent également des solutions concrètes au quotidien pour résoudre les problèmes d'approvisionnement, de coût, de mise en oeuvre, ...

Outre leurs aspects fonctionnels (colorants, arômes, texturants, conservateurs, ...), les ingrédients font les tendances : le végétal, le Clean label, mais aussi le réconfort ou le premium. Cela conduit les analystes d'Innova Market Insights à mettre « les ingrédients sous les feux de la rampe » en N°1 de leurs Top 10 Trends pour 2024.

According to a study conducted by Allied Market Research, the global food ingredients market size was valued at \$270.2 billion in 2021, and is projected to reach \$475.4 billion by 2031, growing at a CAGR of 5.8% from 2022 to 2031.

Far upstream of innovation, ingredient suppliers anticipate trends to help the food industry meet consumer expectations in terms of health, sustainability, pleasure, naturalness and convenience.

Working hand in hand with their customers, food ingredient suppliers also offer practical day-to-day solutions to problems of supply, cost, processing, etc.

In addition to their functional aspects (colorings, flavorings, texturizers, preservatives, etc.), ingredients are setting trends: plant-based, clean label, but also comfort or premium food. This has led analysts from Innova Market Insights to put 'Ingredients taking the spotlight' at No. 1 of their Top 10 Trends for 2024.
